

**Rouge Valley**  
HEALTH SYSTEM

**SRI**  
**Clinical Screening for Rouge Valley Health System**  
**- Diagnostic Imaging -**

The Diagnostic Imaging registration clerks are to ask all patients if they have visited Mexico, southern California or Texas in the past 6 months.

If the patient answers **yes**, they are to be screen further for the following symptoms.

1. High fever,
2. Headache,
3. Ocular pain,
4. Shortness of breath and
5. Extreme fatigue.

If the patient answers **yes** to any of the above symptoms, they are to be provided with a mask and asked to wear it throughout their visit in Diagnostic Imaging and until they leave the hospital.
